CAREER OBJECTIVE

Entry-level Full-Stack Developer who enjoys building technology that solves everyday problems and makes life simpler for society, while growing as an engineer through real-world product development.

EDUCATION

MCA — Kongu Engineering College, Tamil Nadu   **2024–Present** | CGPA: 8.26

BCA — Govindammal Aditanar College, Tamil Nadu   **2021–2024** | CGPA: 8.28

EXPERIENCE

Intern App / Web Developer — Twincord Technologies   *Jul 2025 – Oct 2025*

- Developed and deployed a **corporate website** from scratch for a company with no prior web presence.
- Implemented **mobile-first responsive design** and reusable UI components, ensuring cross-browser compatibility and production-ready deployment.

PROJECTS

PulseFund — Fundraising & Donation Platform   *Nov 2025*

- Built a real-time, role-based fundraising system with **Admin, Creator, and Donor** roles using secure authentication and authorization.
- Enabled campaign creation, live donation updates without page refresh, transparency dashboards for admins, and centralized campaign moderation.
- *Tech: Flutter, Firebase Authentication, Cloud Firestore, Google Sign-In, REST APIs*

MindDump — AI-Powered Thought Organization Platform   *Jul 2025*

- Developed a productivity-focused web application for users to dump unstructured thoughts and manage cognitive overload.
- Integrated **Gemini API** to auto-categorize thoughts, generate task lists, send reminder notifications, and act as a personal assistant for ADHD-focused use cases.
- *Tech: React, Supabase (Auth, PostgreSQL), Gemini API, Notifications, CRUD Operations*

On-Duty & Leave Management System   *Dec 2024*

- Digitized student leave and on-duty workflows using a **role-based approval system** involving Students, Class Advisors, and HODs.
- Implemented conditional request routing, approval tracking, and status updates to eliminate paperwork and improve process transparency.
- *Tech: Node.js, Express.js, MongoDB, REST APIs, HTML, CSS, JavaScript*

TECHNICAL SKILLS

Languages: Java, SQL, Dart, JavaScript

Frameworks & Stacks: Flutter, React, MERN Stack

Databases & Backend: MongoDB, Firebase (Auth, Firestore), Supabase (PostgreSQL)

Developer Tools: Git, REST APIs, Figma, Postman, Jira

CERTIFICATIONS

MySQL Implementation Associate — Oracle

User-Centric Computing (HCI) — NPTEL
